

A SONG WRITTEN FOR MONC

Timeless Ride

Christmas

1:09

3:24

I was sixteen, you twenty-four, our
laughter bright
Your loving heart made days feel light
You made each room feel warm and wide
With friends around, close by your side
We never knew where time would lead
Yet something in us planted seed

*Monc, I feel we've never been apart
You mean everything to me, sweetheart
I love the motorbike, feel alive
Never been apart, you and I*

Those years apart went slowly by
Still every road came back to you
Some days were hard, I won't deny
But love stayed deep somehow, still true
Over forty years later, we found
AC/DC has been our thing
Our hearts turned back when
you're around
Back together, our love can sing

*Monc, I feel we've never been apart
You mean everything to me, sweetheart
I love the motorbike, feel alive
Never been apart, you and I*

This Christmas, let the whole wide
world know
I'll hold this love through every day
Wherever life may let us go
I'm here with you, and here I'll stay

*Monc, I feel we've never been apart
You mean everything to me, sweetheart
I love the motorbike, feel alive
Never been apart, you and I*

*The motorbike beneath blue skies
And our love rolls on, side by side*
