

A SONG WRITTEN FOR FIONA

Timeless Steps of Love

Just because

1:06

3:13

At sixteen, we'd walk side by side
Every twelfth step, we'd stop for a kiss
The road before us opened up wide
Those little pauses tasted like bliss
I knew my heart had found its guide
And every step became a wish

*Fiona, love of my life, my light
I love you more with every day
Your giving heart makes darkness bright
Forever, love of mine, always*

On August first, nineteen eighty-seven
We made our vows for all our life
Its glow still feels like pure heaven
I'm proud to call you my dear wife
These last few years have asked so much
All is under control for now
Your loving hands still give their touch
Your courage lights the way somehow

*Fiona, love of my life, my light
I love you more with every day
Your giving heart makes darkness bright
Forever, love of mine, always*

Whatever roads may lie ahead
I'll hold you close through wind and rain
With all the words we've left unsaid
I'll choose you time and time again

*Fiona, love of my life, my light
I love you more with every day
Your giving heart makes darkness bright
Forever, love of mine, always*

*You'll never know how much it means
To still have you walking by my side*
