

Love in Every Journey

1:26

4:13

On Hong Kong's underground, we first met
Your lovely smile lit up my whole day
That first hello, I can't forget
It shines within me still today
You left Indonesia behind
To marry me, your hand in mine
Your homesick tears, we faced as two
Your kindness carried us right through

*Darling Mila, thank you for staying near
Through thick and thin, you're my dear wife
Your love has carried me through fear
For 11 years we've been together*

In Indonesia, I grew ill
You stayed beside me, calm and still
In Lombok, I came close to death
That first night took away your breath
On holidays and far abroad
Your love stayed strong through it all

*Darling, thank you for staying near
Through thick and thin, you're my dear wife
Your love has carried me through fear
You keep bringing joy into my life*

I'll hold you close through all the years
With all the love you give is so true
I'll stand beside you through your tears
Whatever comes, I'll stay with you

*Darling, thank you for staying near
Through thick and thin, you're my dear wife
Your love has carried me through fear
You keep bringing joy into my life*

*Your lovely smile still lights my way
Your love and joy are here to stay*
