A SONG WRITTEN FOR SUSAN

Through It All

Birthday

1:38 4:48

At our surprise wedding, your hand found mine
One quiet glance made every shadow shine
We stepped into forever, side by side
While all around us opened wide
Your patience has become my truest guide
Your kindness is my safe and peaceful tide

> *Susan, thank you for your love and care*
> *Through every hard day, you were always there*
> *Your support still answers every call*
> *Your love carried me through it all*

After I was assaulted, days turned gray
Brain surgery brought problems day by day
You stayed beside me, never walked away
Your kindness found a little light each day
We share the love our four daughters bring
Our four daughters make our hearts sing
Their love still warms our days with light
And keeps our hearts held close at night

> *Susan, thank you for your love and care*
> *Through every hard day, you were always there*
> *Your support still answers every call*
> *Your love carried me through it all*

As my wife, your patience leads my way
Your kindness meets me day by day
Beyond all I have known, you stay
Your love has changed my life each day
We share the love our daughters bring
Our four daughters make our hearts sing
Their love still warms our days with light
And keeps our hearts held close at night

On your birthday, I wish joy for you
And gentle dreams to carry you through
I'll face each dawn with you, come what may
And hold your hand along the way

> *Susan, thank you for your love and care*
> *Through every hard day, you were always there*
> *Your support still answers every call*
> *Your love carried me through it all*

Your love still lights my way at night
My grateful heart keeps shining bright
