

A SONG WRITTEN FOR DYLAN

Little Dill Pickle Forever

Just because

1:07

3:16

At two and a half, you came home
With two words only, "momma," "water," of
your own
We saw the hurt you'd had to know
And promised we would never go
Your loving heart lights every room
We watch your kindness always bloom

*Dylan, we fought to bring you home
No day will leave you on your own
We'll fight for you through stormy weather
Little dill pickle forever*

You're kind to Dakota every day
With Desmond, you have found your way
You help the ones who need a hand
Your heart knows how to understand
Defiance and anger were there
Still, we would meet you with our care
We were not perfect, we would learn
From your side, we would not turn

*Dylan, we fought to bring you home
No day will leave you on your own
We'll fight for you through stormy weather
Little dill pickle forever*

Whatever comes, we'll stand our ground
Your forever family stays around
Just know our arms will hold you near
Our love will stay through every year

*Dylan, we fought to bring you home
No day will leave you on your own
We'll fight for you through stormy weather
Little dill pickle forever*

*May your bright heart still fill each room
Little acts of kindness always bloom
We're so proud of the little boy who has grown and
learned so much
Can't wait to see the man we know you will become
Two moms who love you, forever by your side
We always got your back, always by your side*
