

A SONG WRITTEN FOR RENEE

Growing Love

Christmas

1:14

3:39

In fifth grade, our friendship first took flight
You made the ordinary feel so bright
That friendship turned to something warm and true
And every road kept leading me to you
On our wedding day, we held each other near
And all our hopes felt suddenly so clear

*Renee, your love has made me who I am
Without your love, I'd not know where I'd stand
You're the rock that holds our family near
My love keeps growing every year*

Through both our parents' passings, you stayed near
You gave me strength when grief was hard to bear
We had our ups and downs to face
But side by side, we found our place
Your laughter fills our days with light
Your caring heart makes our family feel right
You're patient, funny, there by my side
With you, our family grows with pride

*Renee, your love has made me who I am
Without your love, I'd not know where I'd stand
You're the rock that holds our family near
My love keeps growing every year*

This Christmas, I will hold you tight
And promise you my heart each night
We'll watch our family's love still grow
Wherever all our dreams may go

*Renee, your love has made me who I am
Without your love, I'd not know where I'd stand
You're the rock that holds our family near
My love keeps growing every year*

*Your hand in mine, a Christmas light
Our love still glows so warm and bright*
