

A SONG WRITTEN FOR LOUBY LOU

Quiet Light

Anniversary

1:12

3:32

We met online and shared a meal one night
At Anson Farm, it all just felt so right
A quiet spark that made the whole
world shine
And turned my waiting heart to
something fine

*Louby Lou, you're the light I always see
You mean more than words could say to me
Without you, I could not make it through
You're my whole world, forever true*

Then Charlie and Frankie filled our days
with song
You made our family warm and strong
We travelled on, collecting days of gold
With wonderful memories we still hold
I haven't been myself these recent days
But you have held me up in quiet ways
There's lots to face, but day by day
we'll grow
Together, we'll keep ploughing through,
I know

*Louby Lou, you're the light I always see
You mean more than words could say to me
Without you, I could not make it through
You're my whole world, forever true*

On this anniversary, I can see
How far your steady love has carried me
We have a long way still to travel on
But side by side, we'll meet each
coming dawn

*Louby Lou, you're the light I always see
You mean more than words could say to me
Without you, I could not make it through
You're my whole world, forever true*

*One quiet light still shining, soft and true
My world comes home each day with you*
