

A SONG WRITTEN FOR MARY KAY

Heart of Gold

Anniversary

1:43

5:03

Under the soda machine, a mouse appeared
You screamed and leapt with sudden fear
You flew right over top of the table
And found your shelter in my lap, able
That little laugh still lives between us
One tiny scare brought love to greet us

*Mary Kay, you're my everything
Your heart of gold makes my heart sing
This anniversary, I will sing
I love you more than anything*

When losing your brother and dad brought pain
We walked through sorrow's heavy rain
Your heart of gold still shone so bright
And kept our love within its light
That first wild laugh still makes me smile
It warms the quiet, mile by mile
Beside you, all my hopes feel true
My dearest place is next to you

*Mary Kay, you're my everything
Your heart of gold makes my heart sing
This anniversary, I will sing
I love you more than anything*

We met while smoking a cigarette
That little moment I'll never forget
A mouse came out beneath the soda machine
You made the wildest leap I've ever seen
Your laughter still returns so bright and clear
I hear it in the quiet of each year
Mary Kay, I choose you every day
My place is by your side in every way

Together, we'll grow older side by side
Rocking upon the porch with pride
Each anniversary, I'll hold you near
And love you more with every year

*Mary Kay, you're my everything
Your heart of gold makes my heart sing
This anniversary, I will sing
I love you more than anything*

*Your heart of gold will always glow
As we grow older, soft and slow*
