

A SONG WRITTEN FOR LOUISE

Eternal Togetherness

Just because

1:06

3:13

Friends brought us together one night out
In Stirling, laughter filled the air
That night began what love's about
Your laughing eyes were always there
You made the hard days feel more mild
And gave my heart a home to share

*Louise, my Little John, I love you true
I'll stand beside you my whole life through
You keep our family strong each day
Little John, I won't go away*

In 1997, we moved in
Then our new life could begin
We built our days with patient grace
Your love brought light to every place
Our first trip was to Turkey's sun
We laughed as if we'd just begun
Your neck surgery was hard and long
I stayed beside you, standing strong

*Louise, my Little John, I love you true
I'll stand beside you my whole life through
You keep our family strong each day
Little John, I won't go away*

Whatever comes, I'll take your hand
My place is close to where you stand
For all the years still left to see
You'll always have the best of me

*Louise, my Little John, I love you true
I'll stand beside you my whole life through
You keep our family strong each day
Little John, I won't go away*

*That night in Stirling still shines through
Little John, my whole world is you*
