

A SONG WRITTEN FOR CAROL

# Endless Love, Timeless Journey

Anniversary

1:14

3:38

Side by side, we worked to build our dream  
Our own business, together as a team  
You gave me total trust when times  
were tough  
And showed me love was always  
strong enough  
Your laughter made our longest days  
feel bright  
Your loyal heart has been my guiding light

*Carol, in our fiftieth year, my love still grows  
With every passing day, it overflows  
My love's beyond all measure, deep and true  
My love grows more for you*

We raised our beautiful children through  
the years  
Through ups and downs, through laughter  
and through tears  
You toiled to support my dream  
Your care made hope a steady gleam  
We cruised to see this amazing world  
With joy as every view unfurled  
Your funny heart still lights the way  
Your loving strength grows every day

*Carol, in our fiftieth year, my love still grows  
With every passing day, it overflows  
My love's beyond all measure, deep and true  
My love grows more for you*

I'll hold you close through all our days  
And thank you in a thousand ways  
I'll be beside you, come what may  
My love will deepen every day

*Carol, in our fiftieth year, my love still grows  
With every passing day, it overflows  
My love's beyond all measure, deep and true  
My love grows more for you*

*Still side by side, our love will rise  
I see our story in your eyes*
