

A SONG WRITTEN FOR LEE

Heart to Heart

Birthday

1:06

3:14

At your uncle's shop, I saw you that day
I knew you were the love of my life
"I want him," I told myself right away
I felt our future come alive
The world could change in every way
Our love stayed constant anyway

*Lee, happy birthday, my love, today
No other man has made me feel this way
I always knew it from the start
In God's time, we came heart to heart*

I walked away; I deserved much more
Time changed us both, then opened a door
As time went by, we met again
Our hearts came back where they had been
When plans don't go as we had hoped
Our bond's the plan that holds us close
We talk of anything, heart to heart
With honest respect in every part

*Lee, happy birthday, my love, today
No other man has made me feel this way
I always knew it from the start
In God's time, we came heart to heart*

Whatever tomorrow brings our way
This love will stay the same each day
Your patient kindness lets me breathe
Your loyal heart is all I need

*Lee, happy birthday, my love, today
No other man has made me feel this way
I always knew it from the start
In God's time, we came heart to heart*

*That first look still lights my way tonight
Our forever plan still shines so bright*
