A SONG WRITTEN FOR KERRY ANN

Honey Pie Forever

Just because

1:19 3:52

I joined the forces, you stood alone
With our first child beneath your heart
The news of birth came through the phone
While distance kept our lives apart
I longed to be beside you there
To hold you both with tender care

> *Kerry ann, through my eyes, you're still the same*
> *My honey pie, you light my flame*
> *I love you more as years go by*
> *I'll always hold my honey pie*

Danielle Paige had changed our days
You filled our home with gentle ways
When my dad and brother passed away
You gave me room to find my way
You picked up shifts and gave me space
Your steady strength restored my place
Your steady love brought me around
I stood beside you, strong and sound

> *Kerry ann, through my eyes, you're still the same*
> *My honey pie, you light my flame*
> *I love you more as years go by*
> *I'll always hold my honey pie*

In our touring caravan, we'll roam
You make our touring caravan home
All your grandchildren know your care
You'd do anything to be there

> *Kerry ann, through my eyes, you're still the same*
> *My honey pie, you light my flame*
> *I love you more as years go by*
> *I'll always hold my honey pie*

One hand in mine, beneath the sky
More memories, just you and I
