

A SONG WRITTEN FOR ARLINE

Eternal Dance

Birthday

1:26

4:13

That first dance, the whole room slipped from sight
In your arms, we danced into the night
I loved you the first minute I saw you
Your laughter made the whole world feel new
Waterfalls came rushing into view
Top down, we drove where open skies were blue

*Arline, on your birthday, hear me say
I still love you through the hard times, come what may
Growing old together, day by day
I'll hold you close and dance the night away*

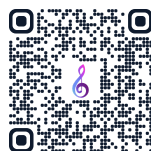

We watched our friends go through their pain
And family face the same hard rain
When miles kept us apart at night
I kept your memory burning bright
Your strength gave me a place to stand
Your caring heart reached for my hand
Each time you danced, the world felt free
And all I want is you with me

*Arline, on your birthday, hear me say
I still love you through the hard times, come what may
Growing old together, day by day
I'll hold you close and dance the night away*

Through changing years, I'll stay nearby
That first dance still shines in our eyes
We'll wake up side by side each day
And love will lead us on our way

*Arline, on your birthday, hear me say
I still love you through the hard times, come what may
Growing old together, day by day
I'll hold you close and dance the night away*

*We dance beneath the fading light
And hold each other through the night*
