

A SONG WRITTEN FOR KIM

Whole Without You

Anniversary

1:14

3:36

In Bakersfield, poolside, in '85
I saw a kindness come alive
You gave the love I'd never known
And made my life at last a home
When breast cancer came, you faced it strong
Your gentle courage carried us along

*Kim, without you, I am nothing at all
You filled the empty space inside my soul
I wish I'd met you sooner, after all
You make my life whole*

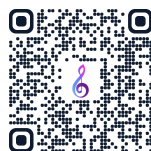

On 1-3-87, we wed
Our joined hearts faced the road ahead
Each day with you feels made for two
Your patient love still sees me through
Each day beside you feels so rare
Our animals have found your care
Everyone you meet can see
The loving care you give to me

*Kim, without you, I am nothing at all
You filled the empty space inside my soul
I wish I'd met you sooner, after all
You make my life whole*

This anniversary, I'll hold you near
And thank the years that brought us here
I'll choose your hand through all our days
And keep our love in gentle ways

*Kim, without you, I am nothing at all
You filled the empty space inside my soul
I wish I'd met you sooner, after all
You make my life whole*

*Poolside, my heart began to see
You are what makes my life complete*
