

A SONG WRITTEN FOR EMILIA

Timeless Love Story

Anniversary

1:23

4:04

Old cinema lights turn soft and gold
We watch the stories they unfold
When we first met, the spark was clear
That instant pull brought us so near
Since then, our trust has only grown
Our bond is something all our own

*Emilia, you're the love of my life
Our ten years have made my heart alive
No one else has ever felt so true
I know I will always love you*

After my accident, you stayed near
Through brain injury, you calmed my fear
Through my long job search, you stayed strong
You were there when the days felt long
You never wavered at my side
Our trust grew stronger with the tide
No one is more special to me
I want no other company

*Emilia, you're the love of my life
Our ten years have made my heart alive
No one else has ever felt so true
I know I will always love you*

Your witty mind still pulls me near
Your patience quiets every fear
Your determined heart stays strong
Your sassy spark moves me along
Your compassion leads the way
Your beauty shows in what you say
My best friend, loyal through it all
You know my every flaw and all

On this anniversary, I know
I can't wait for ten more years to grow
I'll keep on choosing you each day
And love you more along the way

*Emilia, you're the love of my life
Our ten years have made my heart alive
No one else has ever felt so true
I know I will always love you*
