

A SONG WRITTEN FOR COLE

Miles of Love

Just because

1:03

3:04

At dinner, stories fill up the room
Then we hang out beneath the moon
We cheer at every sporting event
And laugh at where the evening went
Video games can light up the night
Just hanging out feels warm and right

*Cole, our first-born grandson, it's true
You hold a special place in all we do
Though we live far, our love will grow
In all we say, our pride will always show*

On flag football days, you give your best
In hockey, you rise to every test
Your jokes bring laughter to our day
Your caring heart lights up the way
You're smart, respectful, kind, and true
Though miles divide, we'll see this through
Grandma Wendy and Tracy love you
We'll always be in your life too

*Cole, our first-born grandson, it's true
You hold a special place in all we do
Though we live far, our love will grow
In all we say, our pride will always show*

Just because, we sing this song for you
To say our love will always stay true
Though miles are wide, our promise stays
We'll be in your life, all of your days

*Cole, our first-born grandson, it's true
You hold a special place in all we do
Though we live far, our love will grow
In all we say, our pride will always show*

*From every mile, our hearts stay true
And all our pride walks on with you*
