

A SONG WRITTEN FOR LUNDY

My Reason Why

Birthday

1:26

4:14

At the cinema, our lips first met
That first kiss lingers with me yet
Our first holiday in Ephesus, Turkey
On that rock, we felt so free
That picture keeps our strength in view
It shows what love can bring us through

*Lundy, you loved me when I lost my way
You kept me hopeful day by day
You gave me back the will to try
You are my reason why*

When I had no income, bills came due
You paid what you could, and saw us through
No eggs or milk, you stayed so bright
You held our hope up to the light
After my accident, you stayed near
You nursed me back through hurt and fear
I know I caused your heart such pain
You chose to stay through all the rain

*Lundy, you loved me when I lost my way
You kept me hopeful day by day
You gave me back the will to try
You are my reason why*

At our wedding, you looked in my eyes
I felt my whole heart start to rise
On your birthday, my wish is clear
I'll stand beside you year by year

*Lundy, you loved me when I lost my way
You kept me hopeful day by day
You gave me back the will to try
You are my reason why*

*Wrapped in a blanket, close to you
There's no one else, just us in view*
