

A SONG WRITTEN FOR GRACIE AND EVIE

Whirl of Laughter

Christmas

1:14

3:38

When you were born, I first saw your face
My whole heart was held in that place
On bike rides, you laughed by my side
Every turn filled my heart up with pride

*Gracie and Evie, Mum and I are proud
At Christmas, we say it out loud
You've grown into beautiful girls
Your laughter makes our whole world whirl*

At hospital, your poorly eye ached
Gracie and I stayed there awake
We held on through each falling tear
Until the morning brought us near
When Nanna Cath died, days turned grey
We held each other through that day
Your kindness found a little light
And led us gently through the night

*Gracie and Evie, Mum and I are proud
At Christmas, we say it out loud
You've grown into beautiful girls
Your laughter makes our whole world whirl*

At Christmas, may this new home glow
With all the joy you always show
May all your dreams rise high above
Wrapped in Mum and Dad's true love

*Gracie and Evie, Mum and I are proud
At Christmas, we say it out loud
You've grown into beautiful girls
Your laughter makes our whole world whirl*

*Two hearts still laughing, side by side
With Mum and Dad, our joy and pride*
