

A SONG WRITTEN FOR ORIANA

Stand With You

Birthday

1:29

4:22

A cold November morning, Starbucks shone
We met there blindly, each on our own
On your birthday, we shared first hello
A road began and let us grow
Four weeks later, tarpon fishing came
And something in us caught a flame

*Oriana, I'll stand behind you through the night
On your best days, I'll celebrate your light
In every season, I'll stay true
Forever, I will stand with you*

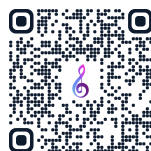

When cancer made the days seem long
Your courage kept us standing strong
Your loyal heart stayed close and true
I found my strength in loving you
You love an autumn leaf's soft fall
A full moon hanging over all
At a vintage antique shop, we'll find
A small treasure, one of a kind

*Oriana, I'll stand behind you through the night
On your best days, I'll celebrate your light
In every season, I'll stay true
Forever, I will stand with you*

When health challenges feel too long
I'll stand behind you, standing strong
On darkest days, I'll stay with you
My loyal heart will see us through
Your best days give us cause to cheer
I'll celebrate you through the year
Forever, I will stand behind
With all our dreams, one of a kind

On this birthday, I celebrate you
For every dream we'll carry through
We'll make our dream home room by room
Beneath the calm light of a full moon

*Oriana, I'll stand behind you through the night
On your best days, I'll celebrate your light
In every season, I'll stay true
Forever, I will stand with you*
