

A SONG WRITTEN FOR KAYI

Little Things of Love

Anniversary

1:08

3:20

That classic ICQ went “Uh-oh” one night
Late-night chats became our favorite time
I built enough courage to call, I recall you
 playing Mahjong
A thousand text on our 8210’s
One year passed before Chinatown came
 in view
Then face to face, the world felt new
 with you

*Kayi, you put our family before you
You make each ordinary day feel new
Thank you for always being there
Your love is in the little things you do*

You taught me sushi could become the best
Two Shar Peis made our house a home
Your care can make the plain day blessed
Two beautiful girls have made us whole
Evie and Hixxy left us aching
We held on tight through hearts that
 were breaking
Eighteen married years, here we are today
Your love still guides us on our way

*Kayi, you put our family before you
You make each ordinary day feel new
Thank you for always being there
Your love is in the little things you do*

From this day forward, I will try
I’ll always be there when you need me
The soul that keeps our family near
And hold you closer every year

*Kayi, you put our family before you
You make each ordinary day feel new
Thank you for always being there
Your love is in the little things you do*

We used to cuddle, missed it so much
And home is where I want to be
I’m sorry I wasn’t there when you needed me
How I long to hold you, don’t deserve your love
Miss those snuggles in bed, our favourite songs
If it’s not too late, I try to be there
