

A SONG WRITTEN FOR MELODY

Eternal Partner

Just because

1:02

3:03

The day we met, the world felt bright
Your smile made everything feel right
At our wedding, hand in hand
We made a life we understand
I knew your love would see me through
And I would walk each road with you

*Melody, you mean the world to me
You love me for just who I am
You are my home, my certainty
My life partner, till the end*

Our children came and changed our days
You put them first in loving ways
You see the best in everyone
Your hope still rises like the sun
Through hard times, we held each other near
The stroke that filled us all with fear
When I lost my mother, you stayed close
Your love became my safest coast

*Melody, you mean the world to me
You love me for just who I am
You are my home, my certainty
My life partner, till the end*

I'll keep on walking by your side
With all the love I hold inside
Whatever comes, I'll see it through
Because my home is here with you

*Melody, you mean the world to me
You love me for just who I am
You are my home, my certainty
My life partner, till the end*

*Your light still warms our family's days
It guides me through the changing ways*
