

A SONG WRITTEN FOR CINDI (CYNTHIA)

Side by Side Forever

Just because

1:28

4:19

Back in our teenage years, we'd roam
Walking through life's adventures side by side
Five years apart, but not alone
Though miles were there, you stayed beside
Your steady love would lead me through
I found my safest place in you

*Cindi (cynthia), you stand by my side
You never let hard days break our trust
Your prayers are where I can confide
Nothing is ever bigger than us*

They said that children would not come
We would not let that doubt decide
Now daughter and son fill our home
Your faith was always at my side
Through high school, you taught them at home
You gave them room and time to grow
The depth of all your love is known
More than these words could ever show

*Cindi (cynthia), you stand by my side
You never let hard days break our trust
Your prayers are where I can confide
Nothing is ever bigger than us*

Ohio was your childhood home
Tennessee could not divide
Those miles still could not change our home
Your hand was always at my side
You caused my first car crash back home
You love the meals I make for you
The life we share is deeply known
More than these words could ever show

Whatever road is still ahead
I'll hold your hand through every turn
Your love is where my heart is led
Beside you, I will always learn

*Cindi (cynthia), you stand by my side
You never let hard days break our trust
Your prayers are where I can confide
Nothing is ever bigger than us*

*Still side by side, we face the view
My whole heart keeps on choosing you*
