

A SONG WRITTEN FOR MARILOU

Unfading Love

I work in another country i see her once a year

1:27

4:16

In Cyprus, working through the day
A friend brought you into my sight
We met, and all the noise gave way
Your laughter made the hours feel light
From that first moment, I could see
A love that came to stay with me

*Marilou, my love will never die
My trust and loyalty will stay
The day we met, you changed my sky
My love, come what may*

When hip replacement made steps slow
You stayed beside me every day
Through difficult times, your love
would show
Your steady care lit up my way
Your trust became my place to rest
Your loyalty outshone the night
With you, I faced my hardest test
And found the strength to stand upright

*Marilou, my love will never die
My trust and loyalty will stay
The day we met, you changed my sky
My love, come what may*

Working abroad has kept me far
Yet every mile still leads to you
Once every year, there you are
My heart will love you just as true

*Marilou, my love will never die
My trust and loyalty will stay
The day we met, you changed my sky
My love, come what may*

*Dianne and Darrell, you call me dad, you make
my world complete
And Dantay's love lives on in you, steady
and sweet
Until I'm back within your light
I keep your laughter through the night*
