

A SONG WRITTEN FOR KAREN

Enduring Echoes of Love

Tribute

1:24

4:07

In the council yard, where we both worked
Your smile turned silence into light
Your kisses dropped my careful guard
I'd find you blindfolded at night
The world was wide, but you were near
One touch, and all my doubts would clear

*Karen, my love will not fade away
I need you more than words can say
My heart still comes right back to you
Yes, I need you, I always do*

The kids and us sang loud inside the car
Each road bump sent our laughter
soaring far
You held the everyday in its right place
Your strength and order gave our days
their grace
Then we lost each other for a while
I held our memories beneath my smile
But nothing made my love for you
grow less
I need you in my life, I must confess

*Karen, my love will not fade away
I need you more than words can say
My heart still comes right back to you
Yes, I need you, I always do*

This tribute holds the truth I long to say
My undying love won't fade away
Whatever comes, my heart stays true
Because I need you, I still do

*Karen, my love will not fade away
I need you more than words can say
My heart still comes right back to you
Yes, I need you, I always do*

*Your kisses still turn darkness into light
I'd find you blindfolded at night*
