

A SONG WRITTEN FOR ASHLEY

Eternal Shelter

Christmas

1:16

3:44

First date, 01/23/2009
I saw forever in your steady eyes
Your hand became my shelter from the rain
You made a home where all my hope could rise
No fortune or fame could make me whole
Just your hand was all I had to hold

*Ashley, I know one love is true
Your hand is all I need to hold
Without you, no dream could make me whole
All I ever needed was you*

With Chase, our home woke up to
something new
With Blaize, our days grew bright with
golden light
Two little hearts turned gray skies to blue
Your love still makes our world feel right
Breast Cancer came, you fought to stay free
Cancer free, your courage shines for me
You lost your parents, yet gave light
Your strength still leads us through the night

*Ashley, I know one love is true
Your hand is all I need to hold
Without you, no dream could make me whole
All I ever needed was you*

This Christmas, I will hold your hand
I wish our love will never fade
For all eternity, I'll stand
Beside you, come what may

*Ashley, I know one love is true
Your hand is all I need to hold
Without you, no dream could make me whole
All I ever needed was you*

*Inside our shelter from the rain
Your hand in mine through joy and pain*
