A SONG WRITTEN FOR DENNIS

Ever After Love

Anniversary

In Nutley, by that rotten chicken smell
We cleaned it up and laughed as well
To impress me, you raised that huge TV
Your bicep tendon paid the price for me
At that wedding, you called me stunning
Those words set all my guarded heart running

> *Dennis, I love you more than words could say*
> *No other life could feel this way*
> *You fill my days with honest laughter*
> *You're my happy ever after*

You gave me two beautiful boys, so dear
They made our lives feel warmer through
the years
When money got tight, you stayed close to me
When scams hit twice, you helped me
breathe free
Sometimes our feelings can run far too deep
But you're the one I trust with all I keep
Your loyal hustle carries us ahead
Your steady love is where I rest my head

> *Dennis, I love you more than words could say*
> *No other life could feel this way*
> *You fill my days with honest laughter*
> *You're my happy ever after*

On this anniversary, I see
The world we'll travel, you and me
Whatever comes, I'll take your hand
Wherever life may lead, I'll stand

> *Dennis, I love you more than words could say*
> *No other life could feel this way*
> *You fill my days with honest laughter*
> *You're my happy ever after*

From rotten chicken to this day
I will choose you in every way
