

A SONG WRITTEN FOR DARRYL

Always Together

Anniversary

1:17

3:48

In Liverpool, we first met face to face
Then hours on the phone would steal the night
It felt like you had always had a place
Your laughter made the whole wide world
feel light

We married in 2020, true
And every vow still leads my heart to you

*Darryl, if you've got me, I've got us
Ask what I mean, I'll clear the doubts
No hurtful words should ever raise distrust
Your life wife, forever, always (we fit like a glove)*

On Anglesey, we made our way anew
Your touch still feels like where I belong
When you're near to me, you fit like a glove
Through misread words, we lost each
other's view

Then found our way back, stronger than before
The toxic pull of alcohol was hard
And separation left an empty space
Yet you reflect, you own the flaws you see
That strength makes me love you more deeply

*Darryl, if you've got me, I've got us
Ask what I mean, I'll clear the doubts
No hurtful words should ever raise distrust
Your life wife, forever, always (we fit like a glove)*

On this anniversary, I say
I pray you'll never give up on us
I've got your back along the way
Keep choosing me with all your trust

*Darryl, if you've got me, I've got us
Ask what I mean, I'll clear the doubts
No hurtful words should ever raise distrust
Your life wife, forever, always (we fit like a glove)*

*I miss the shelter of your arms tonight
I hold our love beneath a tender light (we fit like
a glove)*
