

A SONG WRITTEN FOR NICKY

Eternal Beach Memories

Just because

1:19

3:53

On beach walks, you'd take me by the hand
We watched the moon and stars above
the sand
Camping, we'd gather round the barbecue
Your generous heart made every
moment true
Your beautiful eyes would catch the firelight
And make the quiet feel so warm and bright

*Nicky, I love you more than words can say
Your beautiful eyes light up my way
Nothing feels stronger when we're together
My girl, always and forever*

At gigs, we'd let the music shake the room
Then leave still smiling, humming through
the gloom
Playing games, we'd laugh the hours away
Your funny spark would brighten up the day
That fork near my eye gave us a fright
With chips, we'd laugh till it all felt bright
When illness laid a shadow on my days
Your caring love would guide me through
the haze

*Nicky, I love you more than words can say
Your beautiful eyes light up my way
Nothing feels stronger when we're together
My girl, always and forever*

No grand reason, just because you're you
I had to let this simple truth come through
Whatever comes, I'll keep you close to me
My love will stay, as sure as stars can be

*Nicky, I love you more than words can say
Your beautiful eyes light up my way
Nothing feels stronger when we're together
My girl, always and forever*

*One moon above, one hand held close to mine
And all my love is yours for all our time*
