

A SONG WRITTEN FOR PATRICE

Saved by Your Love

Anniversary

1:30

4:24

At St. Paul Hotel, our eyes first met
A quiet spark turned strangers into song
Your gentle smile is one I can't forget
From that first moment, I knew I belonged
Each Thanksgiving feast draws family near
Your caring laugh fills every room with cheer

*Patrice, you saved my life, you brought me through
The world's a better place with you
You inspire me to be better
My best friend, my treasure*

At our wedding in Red Bank, NJ
We held forever close beneath the night
Our daughter's birth brought dawn into our day
A great mother, you lit up the night
When my brother died, you held me near
You gave my weary heart a place to stand
Through my illness, you stayed through every fear
And kept my shaking heart inside your hands

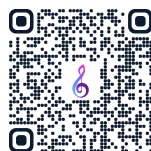

*Patrice, you saved my life, you brought me through
The world's a better place with you
You inspire me to be better
My best friend, my treasure*

On Vegas anniversary trips, we'd get away
And let our laughter carry through the night
Your generous heart made every day feel bright
Feel warm beneath the Vegas neon lights
Each meal you made drew all our family near
Your hands prepared Thanksgiving feasts to share
Your loving care made every gathering free of fear
And made each plate a gift of love and care

On this anniversary, I see
All you have given back to me
I'll walk beside you, come what may
I'll choose you, now and every day

*Patrice, you saved my life, you brought me through
The world's a better place with you
You inspire me to be better
My best friend, my treasure*

*Your light still warms our table's glow
And home is where your love will grow*
