

A SONG WRITTEN FOR DADDY

A song for Daddy

Just because

1:05

3:10

On every adventure, side by side
You made each moment feel alive
One-on-one, you made time slow
With you, each little moment glowed
When words ran out, you listened near
Your hugs could quiet every fear

*Daddy, I know your love is true
Your hugs have always pulled us through
You were there when skies turned gray
You're amazing every day*

When we lost Mom, the world fell still
You held us close with steady will
No words could soften all the ache
But you stayed close for our hearts' sake
Somehow, we found a way to go on
Your arms were there to lean upon
You kept on listening, kind and near
Your love gave shelter from our fear

*Daddy, I know your love is true
Your hugs have always pulled us through
You were there when skies turned gray
You're amazing every day*

No special day has brought this song
I just need you to hear me say
I've known your love was strong all along
I'll carry it with me each day

*Daddy, I know your love is true
Your hugs have always pulled us through
You were there when skies turned gray
You're amazing every day*

Where Piper and Riley's worries cease
Your listening leaves our hearts at peace
