

A SONG WRITTEN FOR TOOTS

Endless Waves of Love

Just because

1:11

3:30

The day we set our yacht to sea
To explore the world, just you and me
You sailed the oceans, could not swim
Yet faced each wave with strength within
We took the risks life set in view
And found its wonders, side by two

*Toots, your eyes sparkle in the light
Thank you, I could never ask for more
I hold you close through every night
Forever, my one to care for*

We built a home care company
A shared aim bound both you and me
For those in old age, day by day
Great reputation led our way
When the hip replacement came, you cared
for me
With steadfast will, you set me free
You held me close through fear and pain
And gave me strength to rise again

*Toots, your eyes sparkle in the light
Thank you, I could never ask for more
I hold you close through every night
Forever, my one to care for*

No special day has brought these words
They rise from all the love we've shared
Whatever waits along our way
I'll care for you through every day

*Toots, your eyes sparkle in the light
Thank you, I could never ask for more
I hold you close through every night
Forever, my one to care for*

*At dawn, your eyes are full of light
You make our world grow soft and bright*
