A SONG WRITTEN FOR PAMMY

Never Left My Side

Birthday

On my first day at work, you walked in
I felt the whole room start to spin
I knew my life would change that day
Your quick wit drove the gray away
Your laughter made the daylight glow
I knew then I would never go

> *Pammy, you never left my side*
> *You held the road and were my guide*
> *You never left my heart, my mind*
> *No, you never left me behind*

Our first dance in Vegas, hand in hand
With Elvis impersonators near
At fifteen years, we vowed again
With Elvis there, our hearts were clear
When we lost our son Michael too soon
You stayed beside me through the night
Your loving heart became my moon
Your loyal love became my light

> *Pammy, you never left my side*
> *You held the road and were my guide*
> *You never left my heart, my mind*
> *No, you never left me behind*

Today I celebrate your life
May joy shine bright within your eyes
Happy birthday, my dearest wife
I'll walk beside you as time flies

> *Pammy, you never left my side*
> *You held the road and were my guide*
> *You never left my heart, my mind*
> *No, you never left me behind*

Your laughter is my favorite song
With you is where my heart belongs
