

A SONG WRITTEN FOR TREVOR

Unwavering Love

Birthday

1:07

3:18

At a friend's wedding, we first met
You promised me a new shower that day
It still has never come my way
But that sweet joke I won't forget
Your caring heart has seen us through
Your working hands show love is true

*Trevor, you've taken care of me
Through nearly thirty years, you saw us through
Your loving ways have set me free
Thank you for all you do*

When Joseph was born in 1999
Your father's love made every moment shine
Our first New York trip lit the night
We held that wonder burning bright
We bought our first home side by side
And made its quiet rooms our pride
In 2019, my cancer came
You stayed beside me just the same

*Trevor, you've taken care of me
Through nearly thirty years, you saw us through
Your loving ways have set me free
Thank you for all you do*

On your birthday, I hope you see
Just how much you mean to me
May every road ahead be bright
I'll hold your hand through every night

*Trevor, you've taken care of me
Through nearly thirty years, you saw us through
Your loving ways have set me free
Thank you for all you do*

*That promised shower still makes me smile
Your love has carried me each mile*
