A SONG WRITTEN FOR CRAIG

My Whole World

1:02 3:04

The first time I came to your place
I couldn't get my kit off fast enough
You drew me softly to your embrace
Your gentleness was there in every touch
Since then, your hand has held mine tight
And made the darkest days feel bright

> *Craig, I love you more than words can say*
> *You see the beauty in my every mess*
> *I thank you for your love in every way*
> *To me, you're my whole world, nothing less*

Through my tough time, you were my rock
I leaned on you through every shock
You stood beside me, strong and kind
You knew the little things on my mind
You cook with love, a simple art
And every meal comes from your heart
You hold my hand, you pull me near
And make the hard days disappear

> *Craig, I love you more than words can say*
> *You see the beauty in my every mess*
> *I thank you for your love in every way*
> *To me, you're my whole world, nothing less*

You got down on one knee for me
I said yes, you picked me up
Your tender kiss made me believe
I knew you were the one I love

> *Craig, I love you more than words can say*
> *You see the beauty in my every mess*
> *I thank you for your love in every way*
> *To me, you're my whole world, nothing less*

Your hand in mine, I'm home with you
My whole heart keeps on choosing you
