

A SONG WRITTEN FOR SARAH

Tobago's Love

Just because

1:11

3:30

On Tobago's beach, our love was born
Caribbean waves caught golden light
That sand still feels like a new dawn
And every breath beside you felt right
I saw the loving heart you would show
A tender place where all my hopes could grow

*SARAH, I have your love to guide me
When life stress came, you brought me peace
Your kindness made the weight decrease
You were always there beside me*

When life stress left me full of doubt
You found the words that led me out
Your sweet romance could calm the night
And hold my restless heart so tight
Those beginnings in Tobago's sand
Still warm the places where I stand
The Caribbean lives in my heart
Where every hope found its first start

*SARAH, I have your love to guide me
When life stress came, you brought me peace
Your kindness made the weight decrease
You were always there beside me*

I'll keep our beginnings close to me
Like quiet waves beside the sea
Through every turn that life may bring
I'll choose your heart in everything

*SARAH, I have your love to guide me
When life stress came, you brought me peace
Your kindness made the weight decrease
You were always there beside me*

*Tobago's sand beneath the sky
Your loving light will stay nearby*
