

A SONG WRITTEN FOR DONNA

Road Trip Memories

Birthday

1:02

3:03

At our first comedy show, we laughed
all night
Each punchline made the whole
room bright
Your patient grin could lift the day
You'd find the joke along the way
Your kind heart made the long miles fun
With you, the best miles had begun

*Donna, that road trip calls me home
Driving Lola, Billy on the radio
Every mile, we made the road our own
That road-trip song will always glow*

Holidays took us far away
Your traveller's heart led every day
Corvette rolling, side by side
Your petrolhead heart loved every ride
Billy Idol songs filled the radio
Our laughter rose and stole the show
Your kind heart made the distance small
I found my home in it all

*Donna, that road trip calls me home
Driving Lola, Billy on the radio
Every mile, we made the road our own
That road-trip song will always glow*

On your birthday, I wish you cheer
And laughing miles throughout the year
I'll ride beside you, come what may
We'll find the fun along the way

*Donna, that road trip calls me home
Driving Lola, Billy on the radio
Every mile, we made the road our own
That road-trip song will always glow*

*One road, one song, the radio
Still carries where we want to go*
