

A SONG WRITTEN FOR ROBIN

Steady Heart, Lasting Love

Birthday

1:03

3:05

We moved in with my children, love in
our hands
We had nothing else but all of our plans
Forty-seven years ago, you stayed
You welcomed my children, unafraid
That love has kept my whole heart warm
Through every calm and every storm

*Robin, you love me through and through
Because you loved me, I always knew
Your steady heart has driven out doubt
Forever, love you inside and out*

Kids counted spending money, day by day
Our caravan was full of smiles
You worked each weekend so we'd get away
To make those holidays worthwhile
At a single parent's, you cut wood
You gave the help you knew you could
Your jokes with grandchildren light
the room
That Peter Pan still chases the moon

*Robin, you love me through and through
Because you loved me, I always knew
Your steady heart has driven out doubt
Forever, love you inside and out*

Today, your birthday lights the way
May joy be with you, here to stay
The Bee Gees still sing our wedding song
Our hearts still know where they belong

*Robin, you love me through and through
Because you loved me, I always knew
Your steady heart has driven out doubt
Forever, love you inside and out*

*Our wedding song still fills the air
I find my home within your care*
