

A SONG WRITTEN FOR TRINA

Circus of Memories

Birthday

1:07

3:16

At the circus, we met, the lights were bright
I felt a little wonder in the air
Your smile made every moment feel just right
And somehow, I knew joy was waiting there
All our memories make my whole heart smile
I keep them close, mile after mile

*Trina, words cannot measure my love
I thank the stars that shine above
This birthday, I'll choose you forever
You're my best friend, my favorite person ever*

In 2004, we said "I do"
I found the truest joy in life with you
The mother of our children, there with me
You make me proud of our family
You're always right, I smile and let it show
Your clever mind sees things that I don't know
Your strength and beauty still amaze my eyes
You make my heart rise higher to the skies

*Trina, words cannot measure my love
I thank the stars that shine above
This birthday, I'll choose you forever
You're my best friend, my favorite person ever*

May this birthday bring you joy tonight
I'll hold you close and make the world feel right
My love will grow with every year we share
I'll keep on showing you how much I care

*Trina, words cannot measure my love
I thank the stars that shine above
This birthday, I'll choose you forever
You're my best friend, my favorite person ever*

*From circus lights to all the years we've known
My happiest memories are our own*
