

A SONG WRITTEN FOR GRAHAM

Grateful for You

Anniversary

1:07

3:17

At work, you asked me out that day
I wrote my number right away
On a docket, neat and clear
Your next-day call drew you near
Our first date: cinema at night
The screen before us shone so bright

*Mr Pearce, love you through and through
For all you do, I thank you too
For me and our three kids, so true
How grateful I found you*

When cancer came in twenty-twenty-three
You stayed beside and cared for me
With knee surgery in twenty-twenty-five
Your steady hands kept hope alive
You fix what breaks with patient care
Your quick wit lifts the heavy air
Your dad jokes chase away the grey
And make me laugh along the way

*Mr Pearce, love you through and through
For all you do, I thank you too
For me and our three kids, so true
How grateful I found you*

On the fourth of November, we'll cheer
Twenty-six years, with you so near
May every road we travel through
Bring brighter days for me and you

*Mr Pearce, love you through and through
For all you do, I thank you too
For me and our three kids, so true
How grateful I found you*

*Still in the glow of cinema light
I hold our beginning warm and bright*
