

A SONG WRITTEN FOR RICK

Chasing Sparks Together

Birthday

1:10

3:27

We went chasing lightning by the beach
Your laugh made every second bright
That wild horizon felt in reach
We held the dark up to the light
Then fully clothed, we hit the pool
You made a splash look pretty cool

*Rick, it's your birthday, make some noise
You make every wrong turn a choice
Every day with you's acrobatic
You're my own personal lunatic*

On holidays in Wales, we found our way
Each mile would pull the grey away
Your daft ideas would make me grin
I'd take that happy trip again
When COVID brought the world indoors
We made it through those quieter days
You stood your ground behind closed doors
And found a hundred daft new ways

*Rick, it's your birthday, make some noise
You make every wrong turn a choice
Every day with you's acrobatic
You're my own personal lunatic*

Keep chasing sparks across the skies
I'll take the long way by your side
Your silly heart can still surprise
Whatever comes, I'll take the ride

*Rick, it's your birthday, make some noise
You make every wrong turn a choice
Every day with you's acrobatic
You're my own personal lunatic*

*One splash, one spark, a winding way
With you, I'd choose that every day*
