

A SONG WRITTEN FOR LYNDA

Forever Love's Embrace

Just because

1:33

4:32

At work, I saw your smile across the room
I thought your beauty lay beyond my reach
That moment made my restless heart just bloom
Your laugh became the language love could teach
Your loving care would brighten every day
You helped the ones around you find their way

*Lynda, I'll forever love you still
For all my days, with all my will
I won't part from your loving ways
I'll love you all my days*

Our American road trip felt so bright
Those holiday miles still make me smile
In Memphis, every memory held light
With you, each moment felt worthwhile
Then we were apart for two long years
Still, I never stopped loving you
Time moved slowly through my tears
And now we're stronger, me and you

*Lynda, I'll forever love you still
For all my days, with all my will
I won't part from your loving ways
I'll love you all my days*

Each day beside you feels so bright
Your laughter still brings me a smile
Your love keeps bringing me light
With you, each moment feels worthwhile
Your hard work shines through all your days
Best friend, I trust in you
I won't leave your loving ways
I'll remain in love with you

Your home is beautiful with love
Your caring heart helps all you can
I'll stay beside you, hand in hand
For all my days, my faithful love

*Lynda, I'll forever love you still
For all my days, with all my will
I won't part from your loving ways
I'll love you all my days*

*Your laughter fills our home with light
My heart stays close to yours each night*
