

A SONG WRITTEN FOR CHERYL

Eternal Grace

Birthday

1:10

3:25

We met online, and something pulled us near
Each mile we traveled felt just like a song
With favorite shows, you made the nights
 feel clear
Raising our kids, we learned where we belong
Your caring heart would meet me where I stood
You gave so much, the way a true love should

*Cheryl, your love has made me who I am
You gave your heart and helped me understand
For all you do for our family
Your grace has carried me*

Before we married, breakups brought us pain
Yet somehow, we would find our way again
Through rougher days, your faithful heart
 stayed true
Your giving love kept leading us on through
At Cocos Hotel, we felt alive
In Antigua, time was on our side
With family, all your care would fill the room
Your love could make the ordinary bloom

*Cheryl, your love has made me who I am
You gave your heart and helped me understand
For all you do for our family
Your grace has carried me*

On your birthday, I will hold you near
Keep choosing us through every changing year
Whatever comes, I know we'll find the way
With all my love, I choose you every day

*Cheryl, your love has made me who I am
You gave your heart and helped me understand
For all you do for our family
Your grace has carried me*

*Your giving heart still lights our way
With you, I'm home in every day*
