

A SONG WRITTEN FOR LAURA

Endless Love, Timeless Bond

Just because

1:23

4:03

At Buena High, more than two thousand filled the halls
Your friend watched an apartment that night
Past midnight, your laughter filled it all
We talked until the room grew quiet
I said your boyfriend was a lucky guy
Hoping you'd see the truth in my eyes

*Laura, you're my everything, true
In good and bad, I need you near
Your loyal love still pulls me through
I'll be here as you've been here*

On Cinco de Mayo, love began
In 2004, we took our stand
Our first kiss warmed the bleachers' air
Sun Devil Stadium, asked you there
College Station called us for your PhD
Texas A&M became your dream
Audrey and Dawsyn filled our days
Your caring love still lights our ways

*Laura, you're my everything, true
In good and bad, I need you near
Your loyal love still pulls me through
I'll be here as you've been here*

Your sharp mind guides the work you do
You manage projects, see them through
For Audrey and Dawsyn, you're there
With every ounce of love and care
When changing shifts took time from me
You stayed beside me faithfully
In every good day, every bad
I'll stand with you through all we've had

Four tests in five years wore me down
You helped me earn that Sergeant rank
When hard days circle back around
I'll be right there when you need strength

*Laura, you're my everything, true
In good and bad, I need you near
Your loyal love still pulls me through
I'll be here as you've been here*

*That painted heart still beats in me
I'll give you all the love you need*
