

A SONG WRITTEN FOR ALANNA

Kindness in the Light

Birthday

1:09

3:22

At small-town BP's, we met at last
Both made the drive for our first date
Too shy to eat, our silence held fast
For one more date, I could hardly wait
Your smile made all that waiting feel right
And filled that little stop with light

*Alanna, keep your kindness bright
Keep room for me in dark and light
When hard times come, I'll hold you near
I will adore you year after year*

Your boys came first in all you did
You'd do whatever they might need
His migraines and trauma were hard
They taught me how strong you are
At lakeside sunsets, by the fire
Your beauty lifts my heart up higher
Fast cars were racing at the track
Your modesty keeps me coming back

*Alanna, keep your kindness bright
Keep room for me in dark and light
When hard times come, I'll hold you near
I will adore you year after year*

On your birthday, I hope you know
Your kindness lights the way for me
Keep your bright positivity's glow
Let me share what is yet to be

*Alanna, keep your kindness bright
Keep room for me in dark and light
When hard times come, I'll hold you near
I will adore you year after year*

*A lakeside sunset, firelight
Your smile still makes the whole world bright*
