

A SONG WRITTEN FOR SANDRA

# Through Every Dream

Anniversary

1:05

3:12

At my brother's engagement, I tended bar  
They introduced you there beside the light  
I said, "Come behind, don't stand so far"  
"I'll show you ropes," and sparks lit up  
the night  
Since then, our loving pair has held on tight  
And every night has kept that feeling bright

*Sandra, thank you for standing by my side  
You held our family steady through each tide  
From every home, you saw our dreams  
come true  
You always see every dream through*

At nineteen, we dreamed a family life  
Lisa, Marie and Kylie filled our days  
Each birth was hard, yet health  
outlasted strife  
You held us close with gentle, steady ways  
The homes we bought, we renovated too  
While living there, we made them  
warm inside  
In Alvor, our dream property came true  
In Portugal, abroad, our hearts reside

*Sandra, thank you for standing by my side  
You held our family steady through each tide  
From every home, you saw our dreams  
come true  
You always see every dream through*

We'll be fifty years married in December  
Seventeenth, a day we'll remember  
Your white wine, my cider without ice  
We'll toast the love that lights our eyes

*Sandra, thank you for standing by my side  
You held our family steady through each tide  
From every home, you saw our dreams  
come true  
You always see every dream through*

*In Alvor, the evening settles slow  
And every night, our love still seems to grow*
