

A SONG WRITTEN FOR DEJAN

Center of My World

Anniversary

1:11

3:28

At Bunnings, you were working that day
My heart held on and would not look away
At a pub, I asked to sit with you
You said yes, and all my world felt new
That simple yes became our start
And made a home inside my heart

*Dee, you're my rock, my everything
You are the center of my world
Through every storm, you make me sing
You'll always be my girl*

When my own mind was hard
to understand
At hospital, you stayed close by
You held on tight and took my hand
Though many would have walked away
We raised six kids with all we could give
And made them feel so special each day
They're grown, and finding their own way
to live
Now it's our turn to find our way

*Dee, you're my rock, my everything
You are the center of my world
Through every storm, you make me sing
You'll always be my girl*

For eighteen years, you've stood by my side
I still fancy you, my heart open wide
For all our lives, I'll hold your hand
Together, we will always stand

*Dee, you're my rock, my everything
You are the center of my world
Through every storm, you make me sing
You'll always be my girl*

*Your smile still makes my whole world shine
My heart is yours, and yours is mine*
