

A SONG WRITTEN FOR JIM

Eternal Friendship

Just because

1:19

3:52

Fifty-two years ago, we met
One moment turned the world to gold
That first hello, I won't forget
Your gentle hand was there to hold
Since then, you helped me make it through
With every loving thing you do

*Jim, I will hold you in my heart
You gave my days their brightest start
Your kindness keeps us close together
I know I'll miss you forever*

When illness cast its shadow near
You never once complained to me
Still, you would meet each day with cheer
Your quiet strength would set me free
You are my special friend, so kind
Your loving ways have seen me through
Your generous heart stays on my mind
I'm grateful for all that you do

*Jim, I will hold you in my heart
You gave my days their brightest start
Your kindness keeps us close together
I know I'll miss you forever*

I'll carry all your love with me
Like warmth that never leaves the air
No matter where my days may be
I'll feel your loving care still there

*Jim, I will hold you in my heart
You gave my days their brightest start
Your kindness keeps us close together
I know I'll miss you forever*

*Your hand still warms my open hand
My heart will always understand*
