

A SONG WRITTEN FOR SANDY

Guiding Light of Love

Christmas

1:19

3:52

In public school, we met among the crowd
Then years went by, but something still remained
At University, we met again somehow
And all that waiting felt so well explained
On Siesta Key, we said our vows that day
Our promise found its own unending way

*Sandy, no one else compares to you
Your patient love sees all my choices through
At Christmas, you make our whole home bright
Forever, my Christmas guiding light*

We opened doors for dogs that needed care
Your loving hands were always waiting there
Through Europe, every road became our song
With you beside me, I knew I belonged
You hold your family close in all you do
Your friends can feel the kindness that you show
Your patient love sees all my choices through
I know the warmth you bring wherever you go

*Sandy, no one else compares to you
Your patient love sees all my choices through
At Christmas, you make our whole home bright
Forever, my Christmas guiding light*

Christmas is our ultimate holiday
May every season find us hand in hand
I'll choose you on each bright and gentle day
And keep our hearts together as we stand

*Sandy, no one else compares to you
Your patient love sees all my choices through
At Christmas, you make our whole home bright
Forever, my Christmas guiding light*

*This Christmas, I'm still grateful you are near
No one compares, and that stays bright and clear*
