A SONG WRITTEN FOR NANCY

Faithful Friend

Just because

On motorcycle rides, side by side
With people we both care for near
Those open roads, the world so wide
Made every mile feel bright and clear
In our gardens, laughter filled the air
You made the ordinary fair

> *Nancy, you stood by me through it all*
> *When I needed you, you heard my call*
> *Your kindness is a light within*
> *I'll always remember through thick and thin*

When illness brought its heavy days
You cared for me in quiet ways
Your steady heart would help me see
Some light was still ahead for me
Then gardens gave us room to smile
And fun times carried us awhile
With every ride, with every bend
I knew I had a faithful friend

> *Nancy, you stood by me through it all*
> *When I needed you, you heard my call*
> *Your kindness is a light within*
> *I'll always remember through thick and thin*

Just because, this song is for you
I'll keep the laughter that we knew
May open roads still lead us on
Past fading light to gentle dawn

> *Nancy, you stood by me through it all*
> *When I needed you, you heard my call*
> *Your kindness is a light within*
> *I'll always remember through thick and thin*

In garden air, our laughter stays
And rides roll on through brighter days
