A SONG WRITTEN FOR JESSE

Timeless Sparks

Birthday

In the parking lot, time stood still
Our first kiss gave me such a thrill
Your smile lights me when you are near
And makes my worries disappear
Your eyes make me the only one
Like all the room has come undone

> *Jesse, thank you for staying near*
> *When I need you most, you're always here*
> *Your eyes say what I need to know*
> *You make me smile and glow*

You help the people needing care
With steady kindness, always there
When I am low, you stay so near
You make the hardest feelings clear
We have been there, both strong and true
Through every moment, me and you
Since you came into my life, I've grown
With you, I feel good on my own

> *Jesse, thank you for staying near*
> *When I need you most, you're always here*
> *Your eyes say what I need to know*
> *You make me smile and glow*

On your birthday, I hope you know
You're one of a kind, wherever you go
I'll keep this joy close every day
Let your kind heart lead our way

> *Jesse, thank you for staying near*
> *When I need you most, you're always here*
> *Your eyes say what I need to know*
> *You make me smile and glow*

That parking lot still holds a spark
Your smile still lights up the dark
